```
/*Feet to convert inch
and cm*/
#include<stdio.h>
#include<conio.h>
void main()
{
    int f,i,cm;
    clrscr();
    printf("\nEnter total feet::");
    scanf("%d",&f);
    i = f * 12.0;
    cm = i * 2.5;
    printf("\nfeet = %d",f);
    printf("\ninch = %d",i);
    printf("\ncm = %d",cm);
    getch();
}
```

OUTPUT:-

```
Enter total feet::5

feet = 5
inch = 60
cm = 150
```
