```c
#include<stdio.h>
#include<conio.h>
void main()
{
    int a, b;
    clrscr();
    printf("\nenter number1:");
    scanf("%d", &a);
    printf("\nenter number2:");
    scanf("%d", &b);
    printf("\n%d+%d=%d",a,b,a+b);
    getch();
}
```

OUTPUT:-

```
enter number1:12

enter number2:13

12+13=25
```
