Encoder

```c
/*Convert hours into
minutes and seconds*/
#include<stdio.h>
#include<conio.h>
void main()
{
    int h, m, s;
    clrscr();
    printf("\nEnter total hours::");
    scanf("%d",&h);
    m = h * 60;
    s = m * 60;
    printf("\nTotal h = %d",h);
    printf("\nTotal minutes = %d",m);
    printf("\nTotal second = %d",s);
    getch();
}
```

OUTPUT:-

```
Enter total hours::4

Total h = 4
Total minutes = 240
Total second = 14400_
```
